

19 July 1955

Dr K.S.Krishnan F.R.S.  
Director

Dear Mr Mital,

Thank you for your kind letter of July 16. We have a Division of Analytical Chemistry which seem<sup>ed</sup> to me to be the most appropriate one for a physical chemist to work in our laboratory. Our present rules do not permit our taking honorary workers and there are already some MScs in the Analytical Chemistry Division who have taken up the posts of Senior Laboratory Assistants. If your son accepts the post of Senior Laboratory Assistant, it will give him ample opportunities for research work and when a vacancy of research assistant occurs, he will be taken as junior scientific assistant. I will personally find it rather difficult to guide the research work of a chemist and that was why I suggested this arrangement. In any case I would very much like to meet your son again and discuss with him alternative arrangements. With kind regards

yours sincerely

*use*  
My dear Doctor,

My son informs me that you intend to take him as a senior Laboratory Assistant. I am very much thankful to you for this kindness.

You will remember last year I requested you to have him as an honorary research scholar. I want him to become scholar under you and learn something. In my opinion the job so kindly offered by you does not fulfil the purpose I have in view. Of course the post of a junior scientific Assistant will be more welcome. I offered him for honorary work because the underlying idea was that he should continue studies and do research work under your kind guidance.

If you can please help him in doing research under you, your kindness will be much appreciated.

With regards,

Yours sincerely,

*R.S.C. Mital*

Dear Doctor,

May I just know when Om Prakash is likely to be taken in as Research Assistant. He has waited enough.

With best regards,

Yours sincerely,

*R. S. C. Mital*
