My dear Dr Joshi

Kindly recall the discussion I had with you on the evaluation of the publications of Dr S N Prasad, Principal Scientist, Division of Terrestrial Ecology of our Centre. I am enclosing Dr Prasad's publications along with this. You may kindly evaluate the publications. The publications are classified as below:

- a. Papers
- b. Reports
- c. Review article
- d. Short notes
- e. Communications
- f. Books

The quality of each publication shall be ranked as below:

- a. Excellent
- b. Very Good
- c. Good
- d. Satisfactory
- e. Average
- f. Not satisfactory

Please note that there are two sets of publications. The first set is for the first five years and the second set is for the subsequent three years. You may evaluate them separately. The second set should be considered more carefully as this is a request from the Scientist for an additional assessment for the exemplary work. Normally, assessment will be done by the Office only after completion of each five years of service. In between assessment could be asked by the Scientist if they find that the work is outstanding. Therefore, the second set of publications should be treated accordingly.

This is our set pattern applied to all Scientists. Kindly conform to this and give your valuation report at the earliest.

With warm regards

Yours sincerely

V S Vijayan
