New Delhi 12
I n d i a .

Dear Sir Krishnan,

Referring to your letter of April 15 to Dr Wolsky of the UNESCO (Djakarta), I have pleasure in informing you that our physics department has proposed Mr. Cadambi Balakrishnan for the post of lecturer at the faculty of Science at Bandung.

Perhaps you would be so kind as to approach Mr. Balakrishnan about this proposal. This might be very helpful as you know Bandung from your visit here.

Of course we shall gladly give any information Mr. Balakrishnan may want about the physics department and about life at Bandung.

The other candidate, Mr Venkataraman is in consideration at our electrotechnical department as he has experience in telecommunication work. You may expect to hear about him shortly.

Truly Yours,

H.C. Brinkman

Professor of theor. physics
faculty of science.
