224 New Eskaton Road
Dacca 2, East Pakistan

Feb 20, 1963

Dear Dr. Rao:

This brief note is to thank you for your kind reception and for the copies of your talks which you gave to me. While your work is not in my field I was able to see that these talks represented deep knowledge of many important areas of mathematics.

I was interested also to read the program for the Jubilee Celebration of the Indian Mathematical Society.

With best wishes to you and your colleagues

Sincerely yours

Kenneth S. Chent
