New Delhi,  
February 26, 1958.

Dear Dr. Krishnan,

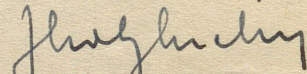

It is with great pleasure that I convey to you on behalf of Mr.W.Billig and Prof.Miesowicz as well as my own sincere thanks for the warm welcome extended to us at the National Physical Laboratory, which we visited yesterday. We were much pleased to have been introduced to the scientific personnel of the Laboratory and to come into contact with them.

I should also like to express our thanks for the opportunity afforded to Prof.Miesowicz to address the staff on the occasion and exchange fruitful informations on various problems.

I was indeed very much impressed by your intimate and extensive knowledge of the leading Polish scientists and some of the most important achievements the Polish Science has to its credit.

With renewed thanks for your kind reception,

Yours sincerely

(Dr. Juliusz Katz-Suchy)
