OLD SECRETARIAT
DELHI

b/s
No. 3030/49.P.D.

May 6, 1949.

My dear Dr. Krishnan,

I am grateful to you for your letter of the 30th April in which you have expressed your inability to write on the National Commission and have suggested the name of Mr. P.N. Kirpal, as one who is more familiar with it.

It is nice of you to suggest Mr. Kirpal's name for that article but you just can't ignore March of India. We are determined to get some contribution from you for our annual number which will be out on August 15th -- our independence day.

Please choose your subject and do write an article of about 1,500 words showing how India has progressed in the domain of science during the two years of our independence.

I am enclosing a confirmation sheet which you may kindly fill in and return.

With best wishes,

Sincerely Yours,

S. Mam Mohan

(Dr. S. Mam Mohan)
Editor,
The March of India.

Dr. Sir K.S. Krishnan, F.R.S.,
Director,
National Physical Laboratory,
University Buildings,
Delhi.

The Editor,
