Dear Dr. Krishnan,

MINERAL OIL : U/V CURVES

In connection with an investigation which we are at present conducting, I require U/V curves on samples of mineral batching oil extracted from jute fabric, using fabric free from mineral oil as the blank.

Since we do not have the equipment at IJMARI for this purpose, which presumably is a spectrometer or spectrophotometer with a U/V attachment, I wonder whether you can assist us. If you have the equipment and are willing to carry out the work for us, I would indeed be most grateful.

Since, however, I am leaving for the U.K. on six months furlough at the beginning of April, I would be much obliged if you could let me have a reply as soon as possible.

With kind regards,

Yours sincerely,

(Dr.W.G. Macmillan)
DIRECTOR.

Dr.K.S. Krishnan, Director
National Physical Laboratory
