September 19, 1969

Dear Dr. Naik:

Thank you for your letter dated September 2, 1969 and the enclosed letter to the Director regarding your pay.

I am glad to note that you and your family are doing well and that you are progressing well with your work.

Your letter to the Director was handed over to the Dean with a request to recommend your case. It seems that Coordinating Committee considered this in a recent meeting. Dr. Sahasrabudhe in a conversation told me to inform you that the Coordinating Committee decided that you will be given Rs. 500/- a month provided you execute a bond. I gather that office shall be writing to you in this connection.

The reprints of paper in Heredity have been received. I have arranged to send reprints to those whose addresses are available. There are three - Stormont, Moustgall and Osterhaff - whose addresses are not available here. I am sending you under separate cover four copies for you to forward.

All the colleagues here join me in sending you and your family our good wishes.

Yours sincerely,

P. K. Sukumaran
