Dear Mr. ^{Ranjit}Daniels:

As you may know, Kenton Miller, Director of WRI's Biological Resources Program since 1988, has been promoted to the position of Vice President at WRI. We are thus now searching for a new Director for the Biological Resources Program. I am writing you to ask your assistance in identifying potential candidates to fill this role.

We are looking for a person to play a leadership role in directing and conducting work related to the conservation and sustainable use of biological resources. The Program has focused on work related to forests, biodiversity, and sustainable agriculture and in the coming year we anticipate substantial growth in our activities related to coastal and marine resources.

I would welcome suggestions of individuals whom you think would be good candidates. Could you also please post the attached position description or publish an announcement in any internal or external newsletters your organization handles? Please feel free to send any suggestions to me (walt@wri.org) or my assistant (alexs@wri.org) or fax them to (202) 662-2511. If you prefer to have this description sent to you electronically you may send your request to the above e-mail address or call Alexandra Sevilla at (202) 662-2534.

Thank you for your assistance.

Sincerely,

Walter V. Reid
Vice President for Program
