Sir K. S. Krishnan
Head, Department of Physics
University Allahabad
Allahabad, India

Dear Sir Krishnan:

There is being sent to you under separate cover
a copy of the National Bureau of Standards publication
C-447 on "Mechanical Properties of Metals and Alloys".

I hope you will return to our country again and
we shall have a chance to discuss some of the mechanical
and electrical properties considered in this volume.

We enjoyed very much your colloquium discussion on
the "Diffuse Scattering of Electron Waves in Metals and
Alloys in Relation to their Resistivities".

Sincerely yours,

F. G. Brickwedde

F. G. Brickwedde, Chief
Division of Heat and Power

Professor Sir K. S. Krishnan
c/o Professor I. Fankuchen
Polytechnic Institute of Brooklyn
Brooklyn, New York

Dear Professor Krishnan:

In order to get out program notices of your talk before a meeting of the Washington Physics Colloquium on November 20, it will be necessary for us to have a title of your talk by November 7th. We would appreciate it if you will send us as soon as convenient a title for your talk. Also, we would appreciate your letting us know your proper titles and university connections we should use in the program notice.

Mrs. Brickwedde and I are looking forward to your staying with us while you are in Washington. We will meet you on your arrival if you will let us know the time of your coming.

Sincerely,

F. G. Brickwedde

F. G. Brickwedde, Chief
