My dear Dr. Ranganayaki,

I hope you have been able to get your thesis typed completely. The Academic Council meets tomorrow and will finalise the names of your Examiners. Hence, it should be possible for you to send your thesis abroad early in February 1960. I shall be leaving for Europe on 21/4/60 and there may be a sporting chance of the 'reports' coming in by that time and for having a Viva-Voce examination. If this cannot happen, your results are bound to be delayed by more than a year.

With blessings to you, your husband and children,

Yours sincerely,

N. R. Dhar
