

YEW ARCH,
DALLINGTON,
SUSSEX.

Dear Dr. Lonsdale

March 30th 1937

Your letter just received this morning. My wife & I will be delighted to welcome Professor Krishnan here for the day, lunch & tea, on Saturday next April 3rd, or if that is not so convenient, on Sunday. The only difficulty is the getting here & back, for the railway journey is a trying one, either from Victoria to Heathfield ^(better) or Charing Cross to Robertsbridge, & we are 5 1/2 miles from Heathfield & 6 from Robertsbridge. But it is quite easy by car, by road, & if you have a car it will be very simple if you and your husband will bring Prof. Krishnan. We shall be so glad to see all three of you for lunch & tea. If you have no car & any other friend has, who could bring Prof. Krishnan, ^{you} we would welcome him & he,

We are 5 1/2 miles
from London

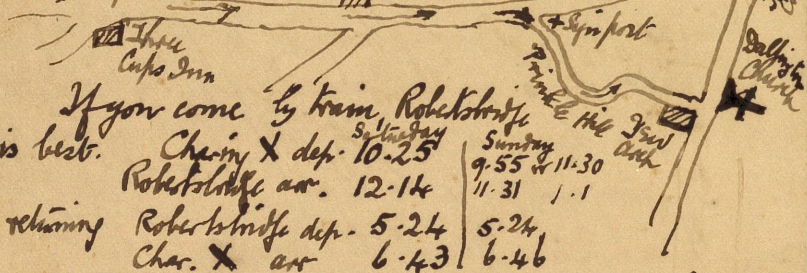

If you have to come by train, we would get a Robertshill man who drives me to meet you at Robertshill & take you back there after tea. Our own family car is at Chatham, with our R. E. son, & I don't drive myself.

If you come by road from West Drayton I should think your best route would be via Purley, East Ginsted, Maxefield, Cross-in-Hand, Heathfield, Three-Cups, Dallington. You cannot miss our house, for we are right opposite the church, & the large New Arch is a conspicuous object at our front entrance gate. If you come by the best ^(straight forward) way from Three-Cups, you pass Ade's Farm (conspicuous by its notice of "Teas" on the left, and a quarter of a mile further on turn up to the right at a signpost marked "Dallington and Old Castle", & this leads you up a steepish little hill to believe you at our corner, ^{right} opposite the church.

Pinckley Hill

From Heathfield

Ade's Farm

If you come by train Robertshill is best. Charing X dep. 10.25 ^{S. Sunday} Robertshill ar. 12.14 ^{Sunday} returning Robertshill dep. 5.24 Char. X ar. 6.43

9.55	11.30
11.31	1.1
5.24	6.46

One has to change at Tunbridge Wells by the 10.25 arriving 12.14, but there are only a few minutes to wait, on some platform.

If you will let me know what you decide, I will act accordingly. Do all these come if you can.
Yours sincerely A. E. H. Tutton

YEW ARCH,

DALINGTON,

SUSSEX.

12. 4. 37

Dear Professor

Thank you so much
for the nice book you sent
me. I was wanting that one.
I have been picking a lot of
primroses and lady's smocks.
Philip has been helping grand-
mother to garden.

Elizabeth

YEW ARCH,

DALLINGTON,

SUSSEX.

Dear Prof. Krishnan

April 12th 1937

How very kind of you to send my little grand-daughter so charming a book. She is writing a tiny letter of thanks to you herself.

We greatly enjoyed your visit to us, and I am looking forward to seeing you in town on the Royal Society day.

The programme for April 22nd has not yet been sent out, but I shall be in town that day & the 23rd, & probably again on the 29th, so that one of the two Thursdays is sure to be a Chemico-physical day. I will write as soon as I get the notice.

With kindest regards

Yours sincerely
A. I. H. Tutton

YEW ARCH,
DALLINGTON,
SUSSEX.

Dear Professor Krishnan April 17th 1937

The Royal Society meeting next Thursday, the 22nd, is a physico-chemical day & not biological, so I suppose you will come over from Cambridge for it. A special notice has arrived this morning that it will be a discussion on The Viscosity of Fluids, to be opened by Prof. G. I. Taylor, & Bernal, Lawrence, Andrade, Hatschek & Schopfeld as expected to speak. It is to commence at 4 o'clock, instead of the usual 4.30. I expect the tea (usually at 4 pm) will be a little before 4 pm. So we ought to be there not later than 3.45, if you find it convenient to come over. We had better meet at the Royal

NEW ARCH
DALLINGTON
SUSSEX.

Institution, and I will call there not
later than 3 o'clock, and go to Mrs.
Lonsdale's laboratory, if she is there.

I should like to introduce you also
to the Secretary of the British Association,
Mr. Howarth, whose office is also at
Burlington House, near the Royal Society, &
I will find out before going to the Royal
Instⁿ whether he will be in his office
on Thursday afternoon.

So trusting we may meet on
Thursday, and thanking you for your letter,
Yours sincerely

A. E. H. Tutton
