

*Dr. S. Krishnaswami Aiyangar.**Retired University Professor*

Dear Doctor Krishna,

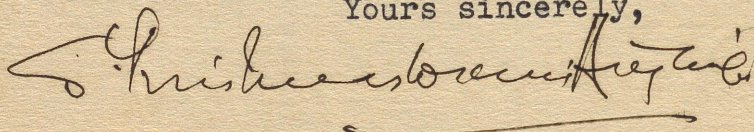

'Śrīpadam,'  
143, BRODIE'S ROAD,  
MYLAPORE, MADRAS, S.

28th. November... 19 39.

As you know, the Indian Historical Records Commission and the Indian History Congress both assemble in Calcutta about the middle of the next month. I shall have to attend both, and that would mean my staying there about a week. I expect my friend, Professor C.S. Srinivasachari of the Annamalai University accompanying me, as recently I have not been in very good health. I am writing this to enquire-pardon my ~~do~~ing so-whether you can conveniently arrange to accommodate both of us, and see us through without undue inconvenience to you. I have had an invitation from a well-to-do scholar friend at Calcutta, and I agreed to go to him and put up in his country house on the banks of the Ganges at Howrah. As the time is approaching, I was thinking whether, in my present condition of health, a camp arrangement like that would be very conducive to my health. Hence the question. Kindly do me the favour to let me have a reply by return, so that I may make my arrangements accordingly.

Thanking you in anticipation,

Yours sincerely,

Dr. M. S. Krishna,  
Director, Laboratory for the Advancement of Science,  
Calcutta.
