Sub. Training in Herbal Medicine for 12-15 tribal  
youth at Kashale, Karjat.

Dear Mr. Mathpati,

The 2 day visit of Mr. Palekar to Talasari and his training of our workers has generated additional interest in herbal medicine here at Talasari. As I had already informed you earlier by letter, we want to send to Kashale about 12-15 youth for a month's training in the practice and use of herbal medicine (theory and practice).

The youth will be free to go only between April 25th. to May 25th. We have discussed these dates with Mr. Palekar during his visit here and he said that they are suitable to him. We have been waiting for your confirmation. Since we have not heard from you, we take it for granted that these dates are OK with you.

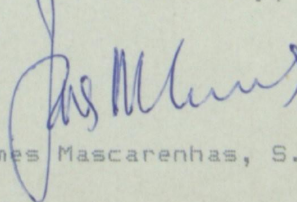

We have a limited budget for this training session. Sr. Cecilia will be meeting you in this connection. I have asked her to discuss that with you. As different institutions from here want to send the participants, I shall be very grateful if you could do the necessary adjustments and try to accomodate our people in that budget.

As soon as we get the details finalized with you we will proceed with the final arrangemetns here.

With kindest regards,

Thanking you,

Yours Sincerely,

Fr. James Mascarenhas, S.J.
