11 May 96

My dear Prakash,

I called on Mr. Anurag Bhalla yesterday morning and handed over the papers that he wanted i.e. the copies of balance sheets for the last 4 years and a report on the Society's major activities, also the charter of work of the Society. He confirmed to me that all documents are now complete. I asked him for an official receipt. He said "We don't give receipts". I pointed out to him that you had repeatedly sent these documents & that they repeatedly said they had not been received and that therefore some sort of receipt was necessary. When he continued to be adamant I quickly made a receipt on my note pad which he reluctantly signed. I enclose this for your information.

I emphasised the good work the Ecological Society is doing for the nation and

that the donor country was getting impatient with the delay and that it was imperative that the sanction be given immediately so that afforestation work could commence with the beginning of the monsoon season. Mr. Bhalla made me a commitment that the sanction would be with the society within 2 weeks. I do hope he keeps his promise. I am writing him a letter to remind him of his commitment.

I do hope all goes well now with the Society and the good work that it continues to do.

With warm regards & best wishes
to you and Mrs Cole and Admiral & Mrs
Awati

Yours sincerely

Jam

P.S.

1. In my opinion the office of Mr Bhalla is highly disorganised & he also appears to be understaffed.
2. We leave for Secunderabad on 16 May & will return to Delhi only in June end.
