Dear Sir,

I do not have the privilege of knowing you personally but Dr.Subbaroyan, Minister for Home Govt. of Madras told me last evening that I could write to you and be sure of an immediate and generous response. He also asked to mention his name as a kind of instrument of introduction.

'Chintanai' of which I am the Editor, proposes to present to the Tamils the highest levels of thought and relies therefore on the cooperation of savants like you. May I request you to send us a contribution in about 2,000 words for the October issue of our Journal. It would be convenient if the article is in our hands by the 20th instant. Dr.Subbaroyan tells me that you wield Tamil with great ease. In that case, your article may be in Tamil. If you find it more convenient, you may put down your ideas in English and we shall arrange to have it translated. A bright and stimulating article on 'Atomic Energy as man's servant' will be just the thing and we know there is no greater authority than you on that subject in India.

May I have a line in reply and your forgiveness for troubling you,

Yours sincerely,

CisRaghav
