40 Ugra Sur

Barrister,

Dehra Dun. 17. 3. 1952.

Dear Dr. Krishnan,

Have you arrived at a decision about a job for me? In the meanwhile a post for a professor of theoretical physics at the National Physical Laboratory at Ahmedabad has been advertised and I would like to apply for it. Please send me Professor Oppenheimer's letter and my manuscript on the theory of the Feynman cutoff. If you think it proper, I shall be grateful for an introduction to the director of the National Physical Laboratory at Ahmedabad. Thanking you, and with my respects,

yours sincerely
Pritam Sur.
