December 16, 1960

Dr. K. Bahadur  
6, Prince Albert Road  
London N.W. 1  
England

Dear Dr. Bahadur:

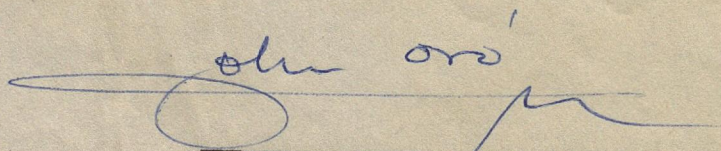

I received your recent letter in which you indicated that you would be free by September of 1961.

This, I think, would be the most convenient time for you to come to work in my laboratory for a period of at least six months.

Since I have to request additional support on your behalf from the National Science Foundation, I will need a brief summary of your recent work on the photochemical synthesis of peptides to include it in the application, which I will write as soon as I hear from you.

With my best wishes for the holiday season.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "John Oro", with a large, sweeping flourish underneath.

John Oro  
Associate Professor
