Safe.
my Dear Brother,

The war in the East makes the position very serious there. We are very anxious about all of you there. There seems to be a general exodus from Calcutta. I wish that all of you go here at once. You may return some time hence under a better atmosphere. Please do it for my sake and avoid risks. Especially after the recent catastrophe in my family I am practically nerveless. Ambi, Labris & children at any rate should go here at once.

Arthamma is unconscious from Saturday last. She is having neither milk nor water. She may depart at any moment. If it is given to you to see her before she expires you may arrive here in time. I am not writing separately to Ambi.

Yours affectionately
Ramaswamy
