Allahabad, U.P.
7-6-1947

Dear Sir Krishnan,

It is nearly about five weeks when I met you. You perhaps might be remembering that you had lent me the prospectus of the Massachusetts Institute of Technology and the Directry to the Colleges in America, chiefly of the California Institute. At that time you were going on a holiday as you had told me. I had come to know from some people at your residence that you were expected to return by the 23rd May. I had enquired at your bungalow on the 26th and 27th. May but was told that you have not come back as yet. Unfortunately for me, whenI enquired today I found that you had come back onthe 28th. but had gone again to Delhi on the 3rd. June..Would you please let me know positively when you are coming back, so that I may have an opportunity to see you at your residence.

Dear Sir, in my estimation you are the only person that can help me as regards the admission of my son into the Massachusetts Instute of Technology, or Californian University. Mr. Shankar Saran whom I met lately has strongly recommended you as the only gentleman in our town who can help me as regards this matter, and I do know this as a fact myself, because I find practically no one else to help me. I therefore entirely depend upon you, that you will by cable or by letter get my son admitted in any foreign Institute. It makes no difference to me whether it be in England or America, any Instute that in your eyes is perfect, will also be the same for me.

Hoping to hear as soon as possible from you, and thanking you for the trouble.

Yours Truly,

B. N. Chaddha
