Dear Dr. Krishnan,

It was so good of you to offer to take up the case of my niece's husband with Dr. Bhabha. Enclosed is a copy of his representation. He has a large family - a wife and six children - and faces a very difficult problem. Termination of services will stand in his way of getting another job, and seems too severe a form of punishment, especially as he had no opportunity given of explaining his difficulties. Do what you can, and he will be very grateful.

With regards

Yours sincerely
