Dr. B. S. Mashava Rao
Bangalore.

Dear Dr. Mashava Rao,

About the end of

February I sent a paper
to Sir C. V. Raman for
publication in the Proceedings.

It was on the consistency
of the geodesic postulate, in
Einstein's new Relativity, with

the field equations for motion.

It has appeared recently in Current Science.

I should very much like to

know the fate of the paper -

when it is likely to be published
and all that.

I have been very much
wanting to be in touch with
you but unfortunately - that
has not happened so far.
Being in touch with your
writings I believe - that it
may be of great advantage
to me to discuss certain

problems in correspondence
with you now & then. Hence
I am taking this opportunity
to introduce myself to you. I
believe I sent you a few
months back a copy of my Bombay
Lecture on "Gravitation".

Hoping that this finds you,
And with kind regards,
Yours sincerely,
V.V. Narlikar.
