Before '98 tests

Please tell your friends:

1. The Thing has been ready for a while. The hole was an old one - it was just cleaned out for this show.
2. The Thing is no duplicate of the Old Joker. This was/is all shiny new. Also re-read PKI in Current Science. [When will Liver, start reading their own *non*-classified lit.?!]
3. Contrary to intention (?) and belief, Sam has brought dangerous, de-stabilising miscalculation/mis-action that much closer by attempting prevention of this show.

Pray!
