March 6, 1970.

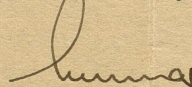

Shri P. Sukumaran,
Human Variation Unit,
Indian Cancer Research Centre,
Tata Memorial Hospital Compound,
PAREL, BOMBAY 12.

Dear Shri Sukumaran,

I am interested in knowing hemoglobin and blood group variants on some Indian populations. I remember that some studies were published by Dr. L.D. Sanghvi and others from your Centre. I shall be grateful to receive the reprints of these if available, or you may let me have reference to the published work.

Looking forward to hear from you
and with kind regards,

Yours sincerely,

(SHARAD KUMAR)
