

9/4, Sivan North Car Street,
Palayamkottai.
12-1-1959

Dear Sir,

I beg to introduce myself as the grand-son of Sri Chinnambi Vadhyar, the primary school teacher for you at Watrap. My father, Sri N.S. Subramania Sastri, who was Postmaster in Mathurai District had been known to you well. I submit the following lines for your kind perusal and favourable instructions.

2. I was studying in Junior B.Sc. class in Madura College, Mathurai, (residing at Ramasami Iyengar compound, Vasanthanagar), when I received the appointment orders from the Postal Department. Leaving the studies in the middle, I joined this Department which enabled my two younger brothers to get their degrees. After five years I took leave for one year and joined St Xavier's College, Palayamkottai to continue my B.Sc Course. I got through in decent second class in March 1957---missing the first class by seven marks.

3. By your blessings my youngest brother Chi. Ganapathi Raman is now taking his training in Atomic Energy Establishment, Trombay. As I now feel free from responsibilities, I intend joining M.A. (Chem.) course in the coming college year (June 1959) in the American College, Mathurai or in any other college in Madras. I am sure I can get a seat if you will kindly give me a conduct certificate.

4. I humbly request a conduct certificate may kindly be sent to my address given below with necessary instructions. I shall be joining the M.A. course by taking leave without pay for two years. I feel confident I can get through with class.

To
Dr. K.S. Krishnan,
Director
National Physics Lab.,
NEW DELHI.

With Respectful Regards,
Yours faithfully,
S. Srinivasa Sastri
(S. Srinivasa Sastri)
Clerk, Postal Dept. 9, Sivan North Car St
Palayamkottai
