Dr. Swaminathan

How are you? I hope you're fine. I was very surprised when I received your letter the very next day I had interviewed you. It was so sweet of you! The letter has been giving me a lot of encouragement. Thank you very much!

My article about you was published last Friday and I sent one copy to you on the same day. You might have received it by now. Hope you like it. It was my great honor to write about you. In fact, as I studied your career record more closely, I

realized that I was so bold to interview such an important person like you. But your sweet and friendly personality really relaxed me.

Dr. Swaminathan, please let me know when you come to Japan again. Next time, I'll make an appointment to meet you beforehand so that I won't make you schedule busier.

I'm looking forward to seeing you again either in India or in Japan. Best wishes!

Sincerely yours,

Rituko Nakamura

THANK YOU
