20th August, 1954

Sir K. S. Krishnan, F.R.S.,
National Physical Laboratory,
University Buildings,
Delhi, India.

Dear Krishnan,

I can assure you that the talk which we had at lunch together with Mr. A. B. Brooks, who is a director of Macmillan & Co., was very beneficial both to him and to me. Mr. Brooks's dates for Delhi have now been fixed. He will be arriving there on October 23rd from Bombay and will be leaving again on October 29th for Calcutta. Mr. Brooks tells me that he will be writing to you nearer the time to let you you have details of, for example, where he is staying.

You can be sure that NATURE looks upon your kindness in arranging to see him as a favour. I have already written to Sir Shanti Bhatnagar telling him of Mr. Brooks's visit and informing him that you have already met Mr. Brooks in London.

I feel certain it will be to the benefit of science and education in both India and Britain if Mr. Brooks can meet as many leaders of scientific and educational thought in Delhi as possible though, of course, his time will be rather short.

With kind regards,

Sincerely yours,

L. J. F. Brimble

Joint Editor

Dear Mr. Brimble,

I returned to India a few days ago and I found both your letters waiting for me. Allow me to thank you for your kind felicitations which I much appreciate. I am looking forward to meeting Mr. Brooks next month when he visits Delhi, and I shall be glad to be of any help to him during his stay here.

I carry with me very pleasant memories of my meeting both of you in London.

With kind regards,

Yours sincerely,

L. J. F. Brimble, Esq.,
