ALL INDIA DIRECTORY
A computerised Data-base on
NGOs in SCIENCE & TECHNOLOGY COMMUNICATION
(Project undertaken for Department of Science & Technology, Govt of India)

Ref. No. 10.1

Date 24th May '85

Dear *friend*

1. The Department of Science & Technology (DST) has decided to compile a comprehensive data-base, fully coded for computerised classification and retrieval, on voluntary organizations engaged in S&T communication. This "Directory" would be quite different from others both in content and potential usage. It seeks to cover all major dimensions of the organizations' activities, and would thus serve as a comprehensive reference base and data bank for S&T communication activities throughout the country.

2. The data base would serve two major objectives:

For Voluntary Organizations:— Providing access to and transmittal of information regarding software availability, development and field experience, to avoid unnecessary duplication and expense of effort/money.

For DST:—Enabling formulation of, and support to, co-ordinated programmes by voluntary organizations on S&T communication.

3. The DST has entrusted us with this important and challenging task.

We are preparing a fully coded questionnaire which will be sent to you shortly. We shall make all efforts to contact you in the field to ensure completeness and accuracy of information from your organization.

4. Meanwhile, we seek your co-operation and assistance in providing us with:

- * Brochure and other material highlighting your organization's aims and objectives.
- * Literature detailing your activities.
- * Names & addresses of other organizations engaged in similar/related activities, to whom you are actively associated or whom you know.

Dr D.
Yo

With regards,

Thank you,

response to this letter.

Seventh Plan Period), we look forward to your active cooperation in the long run the DST (which seeks to impart considerable impetus to S&T Communication

6. Since this Project would be of immense value to both Voluntary Organ which should have the widest possible coverage.

- Kindly, therefore, do not "rule out", without first consulting us, your inclusion in
- * agricultural extension/rural development
 - * health, nutrition, family welfare
 - * artisanal/intermediate technologies
 - * popularization of science/non-formal education
 - * environmental protection.

5. It may be noted that "S&T Communication" is a very wide category and c aspects as:
