

As you may know, we teach a few kids of the construction workers language and basic maths. The response has been very positive so far. At this stage we would like to solicit some small donations to buy some inexpensive clothing for these children as these kids have no decent clothing at all. We hope the NIAS faculty and staff will help us, in a small way, to improve the conditions of these children. We will use this money to buy clothes, biscuits and other necessary items when required in the coming months. Kindly hand over your contributions to Suchitra who will come around and collect it!

Thank you for your support.
