Respected Dr. Sahel,

Thank you very much for your kind and affectionate letter. I felt very happy to learn that you had a comfortable journey, and had a happy family reunion on reaching home with all the children and ^{the} grand-children. Naturally it must be a pleasant change.

Regarding some tiny jobs you entrusted to me it is my pleasant duty to attend to them. I had sent the telegram to the Registrar, Rajasthan University on May 12. One small registered parcel, and a number of letters and acknowledgments have been redirected from here, which I hope you must be getting in due course of time. The postman was not correct in informing you that some extra postage was required in redirecting the registered parcels. So I shall be sending soon by M. O. the amount left over after giving the telegram. (Rs. 8.80)

I miss you very much here. You were so kind to me and more so a source of inspiration by your ceaseless work that I have decided to keep you always in my mind as my ideal and continue to draw inspiration. I cannot describe in words what regard I have got for you. Kindly excuse ^{me} for it as sometimes words become too poor for expressing the immense feelings one has got.

Kindly convey my best regards to Mrs. Madhava Rao. How is she progressing?
With best regards to yourself,

Yours affectionately,
Shri Krishna.

P.S. Let me know your future engagement, if you take up any.
