Dear Sister Pratibha,

Greetings from Maheshmunda.

I am in receipt of your letter dated 31.12.94 recently, after being redirected from Paharia Seva Samity. I am a technical advisor and member of the Board of Management. So I go occasionally only when need. My short contact-address is on the cover.

I would like that you should do the follow up programme, by workshop of the medicinemen. You can choose some selected diseases and give to groups, and get it written. Then each group leader will ~~do~~ put it for the general discussion and amendment made. Maximum two days workshop is sufficient. These records you can keep it. They will be valuable documents and later on compiled and made a book form. In Bihar, this type of things are being done by Health Co-ordinators, which are much useful in the orientation

Seminars. For this you do not need an expert. Monitoring is sufficient. The advantage is that without seeing the plants it can be discussed in Marathi, as the medicinemen know the plants already.

With this I close down.

Happy Easter to you and to James and other priests and the Brothers.

Thank you

Yours sincerely
