Dear Sir,

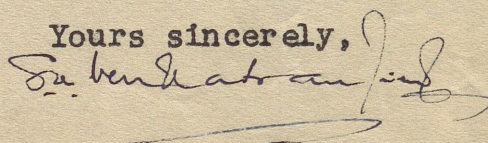

OK

I enclose this letter addressed to you with a letter which I wrote to my friend Sri S.R.S. Raghavan so that he may personally handover the same to you and see you in connection with the request I ^{am} making on behalf of my second son Chi.S.V. Rangaswamy.

Chi. S.V. Rangaswamy ~~is~~ after taking his B.Sc. of the Mysore University joined the Madras Institute of Technology for Electronics and has completed his course taking a first class. He has had to do 6 months of practical of which he has, by the kind permission of his Director, been doing a part at the Institute itself. This practical course of training will be over by the 20th inst. He is anxious to work at Delhi in the National Physical Laboratory to have a couple of months training. Already 3 or 4 of his colleagues, I understand, are working at the Laboratory. He had been deputed to take his practical at another place. But he personally prefers to work in the National Physical Laboratory. Can you kindly permit him to do so. On hearing from you I shall ask him to send a formal application through his Director.

I trust you are all doing well. I hope to see you next when you come over to Bangalore if that is earlier than my going over to Delhi.

With sincere regards,

Yours sincerely,

Dr. K. S. Krishnan,
 Director, National Physical Laboratory,
New Delhi.
