Dr. R. S. Krishnan
Department of Physics
Indian Institute of Science
Bangalore, India

Dear Dr. Krishnan:

When I discussed with Dr. Zachariassen recently our work on the electrical behavior of semiconductors and told him that we are looking for single crystals of graphite to include this material in our researches, he pointed out to me that you might be able to get us single crystals of graphite which are solid enough so that electrodes can be put on for measuring electrical conductivity and Hall effect, as well as ~~thermo~~ electric power as a function of temperature.

Anything you can do to help us in this respect will be highly appreciated by myself and my associates, and trusting to hear from you regarding this matter, I remain,

Very sincerely yours,

Kash Horowitz
Dr. K. Lark-Horovitz
Head, Department of Physics

Dear Prof. Krishnan,

The above letter has been wrongly addressed to me. It is meant for you. I am therefore forwarding this to you for favour with kind regards,
Yours sincerely,
R. S. Krishnan

R. S. KRISHNAN.

DOMOHANI

B&ARly.

11.9.42.

Dear Doctor,

I enclose herewith
a crossed cheque for Rs 75/-
and I'll be obliged if you'll
please acknowledge by return
of post. This cheque is for
the cycle which I have bought
from you via Sarma! Sorry
for this despicable delay, but
you know what it is?! Great-
persons like me do not bother
about such mundane things
like money transactions!

Well how do you like
Allahabad or rather how does
Allahabad like you? I suppose
it is a little difficult to get
fresh coffee seeds with the present
dislocation in service. Fortunately
I managed to store up a respectable
quantity of coffee seeds and
I am trying to drink enough

to make me disgusted with
the stuff so that I shant miss
it when I cant get it. But the
trouble is, it seems to be a
mighty costly game! I have
not even reached the
"satiated" stage!

Dumohani which is
at present honoured by my
stay was the headquarter
of the ex Bengal Doars Rly
which was absorbed by the
E. B. in 1941 and the present
name B & A Rly was adopted
later after swallowing the
A B Rly also. I'll stop my
prattling now and let you
get on with paramagnetism
(or is it coffee imbibing?).
yours sincerely

P.S. I met the other day by
R.S. Krishnan.
accident Dr Sondhi whose
ambulance paid us an indirect
compliment as the strenuous
efforts we used to make to keep
him fit in Punjab club!
Kin
