Sir K. S. Krishnan  
National Physical Laboratory  
Hillside Road  
New Delhi 12, INDIA

Dear Dr. Krishnan:

I have intended for some time to write to you to express my satisfaction with the work of Dr. Srinivasan. I am deeply indebted to you for your recommendation of him. He is an able physicist who has won the respect of the members of our department. He is also an interesting and sincere person with whom it is a pleasure to be associated. I am delighted that he will be able to stay with us for a second year.

We have a cosmopolitan group in my laboratory this year. Dr. E. Otsuka, a Japanese is working with Dr. Srinivasan. There are three graduate students- one of them, Mr. Kokkotakis, is from Greece.

I hope that we will see you in Urbana this summer. I have yet to see him but my wife tells me that your grandson is a handsome boy. If we can assist you in any way with your travel please let me know.

Sincerely,

*Robert Maurer*
