1<sup>st</sup> Sept. 1955

My dear respected Dr. Krishnan,

Thank you very much for your kind note of the 29<sup>th</sup> from Genève. We were glad to learn that you enjoyed your stay at Crand and hope your tour through Russia will also be very enjoyable & pleasant.

It was really very kind of you to have come to Bern & visited us here. We are only sorry that it had to be so short!

I note that you hope to be back in Delhi by 21<sup>st</sup> Sept & I would await your letter eagerly before finalising my future programme.

With our joint best regards and respects,

Yours sincerely,  
L. D. S.

9th August, 1955.

My dear respected Dr. Krishnan,

I wonder if you remember me firstly as one of your students in Allahabad University and secondly as a lecturer in Osmania University where I met you at Dr. Bhagwantum's house. For the last three years I have been in U.K. or the continent visiting various laboratories and specialising in electrochemistry. At present I am staying here as a guest of Bern University.

I would like to meet you again as you happen to be here in Gêneve. So, if you would kindly let me know your telephone number and place of stay, I could come down in my car and call on you any time that you are free on the 13th or 14th August, '55.

The telephone number of my residence is Bern 35.8.35 and that of the University 2.10.14, if you care to phone me up.

With best wishes and kind regards.

Yours sincerely,

*Sanghi*

OK

My dear Respected Dr. Krishnan,

Thank you very much for your kind note and blessings for the new year. We were a bit surprised to find your letter being posted in this country but then actually we were expecting that you might attend the meeting of the International Council of Scientific Unions. However, we are disappointed to note just now that you are not present at the Royal Society Hall this morning.

I know it is not necessary for me to remind you about my case in the C.S.I.R. as we are sure that you will do the needful if and when the occasion arises but we would surely be very much relieved if you kindly gave us a brief indication of the position. Also, if you have recently received a reference about me from the Advisory committee on Colonial Colleges, London, kindly do send a few lines by Airmail as I am informed that the decision will be taken within a fortnight.

Thanking you for the trouble and with our joint best respects.

Yours sincerely,

*dr*

Dr. Indra Sanghi,  
Senior Scientific Officer.

Central Electrochemical  
Research Institute,  
KARAIKUDI-3. (S.Rly)

16th February, 1959.

Respected Prof. Krishnan,

I learn from the newspapers that you were recently in Madurai and addressed the American College students. I would have loved to hear you and hope you would favour me by dropping me a line if you happen to come this side in the near future.

I am sure you would very kindly remember our discussion at your place during the Science Congress. I have so far not heard anything in reply to my application of 9/1/1959 requesting a transfer at my own cost to any north indian laboratory. Since then some more posts for S.S.O. in physical chemistry have been advertised in C.B.R.I., N.C.L., and C.F.R.I., ~~also~~ in addition to that in N.M.L. Needless to say that I am depending on your kind support.

Hope you are enjoying best of healths.

With kindest regards,

Yours sincerely,

*Indra*
