Dear Shri Siddhartha,

Many thanks for your D.O. No. VS/RHS of May 17, 1968, which followed soon after your father very kindly took the trouble of handing over one copy of your thought-provoking treatise on the Indian aircraft industry. I have also since received five more copies, which I am arranging to circulate to the concerned authorities at the Ministry of Defence and Air Headquarters.

2 I have taken note of the few typing omissions in the manuscript which are being put right before circulating the copies.

3 May I once again say how grateful I am for thinking of me and sending copies of your paper which is indeed a major work and outcome of deep and authoritative study.

Kindest regards,

Yours sincerely,

S. Mullick
