Dear Mr Futehally,

Hope this finds you on the road to full and speedy recovery.

I enclose a short note entitled "Sighting of Rufoustailed Flycatcher *Muscicapa ruficauda* in and around Hyderabad, Andhra Pradesh", which I had submitted for publication in the Newsletter, to which you had responded positively vide your letter cited above.

Somehow this short-note seems to have got side-tracked. Please consider publishing it in a future issue of the Newsletter, for I feel it is a significant record for the area.

Thanking You,

With best wishes and regards,

Yours truly,

Dear Mr Futehally,

Since publishing Kumar Ghorpadé's Letter in *Pitta* No. 120, I've had great bouts of remorse for bad editing. I do not know whether you read the piece in question but he has written about Sálím Ali and yourself, etc. In my hurry to bring it out in time, as we inform the programme to members through *Pitta*, I was tardy with the editing and allowed things to pass that should not have.

I write to apologise for any anguish this may have caused you. It pains me.

I have received quite a few letters and messages that the piece should have been edited properly or not published at all. It shall not happen again.

With best wishes and regards to you and Mrs Futehally,

Yours truly,

Replied by e-mail.

Dear Basheesh,

E-MAILS are convenient, but too impersonal, so occasionally I will write myself - not tell the Computer.

Thank you for MAYURA & PITTA. These will be interesting post dinner reading. I had a letter from BALJIT enquiring about the review he sent me on the AUDIO CASSETTE. I see that it is already on PITTA. What shall I do with the Bibliographic INDEX? A. J. URFI is coming here on Sunday. Shall I give it to him. He may find it more useful.

I enclose a couple of COLUMNS from the Deccan Herald. In the next one I am quoting your 'most memorable

experience!

I enclose a small cheque, which, I hope, will at least cover your postages.

We were away in Madras when your Courier (?) arrived with MAYURA. A neighbour received it & gave it to me only yesterday.

Dreadful things are happening to our world — due to modern technology? I wonder whether it would be better to go back to the BOW & ARROW age.

Certainly better for animals, and as PETER SCOTT said: "It is their world too"!

I receive many letters, ending with 'yours in Conservation', or 'yours in birds'. I will just wish you good health

Zabor

My dear Sridhar,

FUTURE OF THE NEWSLETTER

I refer to our recent talk in which I told you that though I was in good health at the moment, at the age of 82 I must be prepared for death. I am sure you agree that the Newsletter must continue to exist as it seems to be a good medium for ornithology and conservation.

I suggested that you and Aasheesh Pittie and V. Santharam should decide about the future Editor and allied matters whenever the time comes. I am glad that you agreed to this suggestion and I am taking the liberty of sending a copy of this letter to Pittie and Santharam. My association with the three of you could not have been pleasanter.

A final request. Since my wife and daughters have a deep attachment to the newsletter since December 1959 when the first issue was produced, and the considerable help which they have provided through the years, I would like them to be informed about the decision taken.

Wishing you and your family good health.

Yours sincerely,

Zafar Futehally
