CAMBRIDGE A, MASS.

FREDERICK G. KEYES

October 3, 1929.

Professor K. S. Krishnan,  
Reader in Physics,  
University of Dacca,  
Dacca, India.

Dear Professor Krishnan:

I have had the pleasure of receiving a number of reprints dealing with the most interesting work which you have been carrying out in connection with light scattering. We are very much interested in this phenomena at the Institute and are making some small progress in studying the effects.

With sincere thanks.

Very cordially yours,

*F. G. Keyes -*

FGK/MVW.
