

22.5.59

Respected Dr. Sahab.

Thank you very much for your kind reply and sympathy in my case. I have noted the contents of your letter. As for my admission in Allahabad university is concerned you can better know the chance but I am an old student of the university. Please write to me if I can influence Dr. Ghosh or any body who makes an admission. I may try my best that way also. There is always a chance that these first classes may go away in some good jobs etc. I may come to Allahabad in some in the first week. Dr. Sahab, I want to better my fate which is dragging me through my existence in this wretched place like Mahali. In this absolute darkness and sea of disappointments you are the only ray

hope and harbor where I can stay and make my life which is abandoned to me. Please give me chance to rectify my previous mistakes.

As for taking appointment in Agga university I shall try my level best and shall do the very best in that connection. I have already taken steps in that direction. What do you suggest if I take up research under you & work here at Mahali in my own college. Whatever equipment is required I shall purchase here at Mahali. The thesis etc may be submitted in Agga university. If this programme is feasible please guide me to take the necessary steps.

Best is all well.

with best regards to you &  
to respected Pshabifce I am aff  
Shardababu
