Sir K. S. Krishnan
c/o Professor I. Fankuchen
Brooklyn Polytechnic Institute
Brooklyn, New York

Dear Sir Krishnan:

Hotel room has been reserved for you for Sunday night November 17 at Broadview Hotel, 5540 South Hyde Park Boulevard.

The two lectures scheduled for you are:

1. Monday, November 18 at the Physical Chemistry Seminar.

Topic: Magnetic Properties of Aromatic Molecules.

There is a luncheon at 12³⁰ noon in the Seminar room (Room 208) in the Jones Chemical Laboratory. The lecture will be given in the same room after the luncheon.

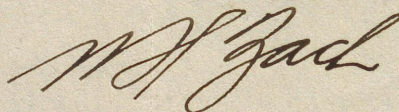

2. Thursday, November 21 at the Physics Colloquium.

Topic: Diffuse Scattering of X-Rays and Electron Waves in Crystals.

The Colloquium is held in Room 202 of Eckhart Hall at 4:30 P.M. There will be a tea at 4:00 P.M. in Eckhart Hall Room 209.

We are looking forward to your visit.

With best regards,

WHZ:P

Sir K.S. Krishnan
% Prof. I. Frankuchen
Brooklyn Polytechnical Institute
85 Livingston Street
Brooklyn 2, New York

Dear Professor Krishnan:

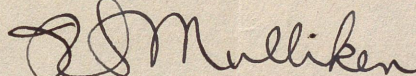

Thank you for your letter. Just in case I should miss your telephone call on Saturday, I am writing this letter to the New York address you gave. Professor Zachariasen has made plans for the Physics Colloquium on Thursday, November 11 at 4:30 PM, at which time he hopes that you will talk on the diffuse scattering of X-rays and off electron waves in crystals.

We would also like very much to hear your discussion of the magnetic properties of aromatic crystals. It has seemed to me that the best occasion for the presentation of this subject would be at the Physical Chemistry seminar on Monday November 18. This seminar begins with a luncheon at 12 noon sharp in the Chemistry Building (Jones Laboratory, Room 208). Professor T.F. Young, of the Chemistry Department is in charge of this seminar and he would be very glad if you would come to the luncheon. The talk occurs immediately after the luncheon, at about 12:45 and the talk and discussion usually last until about 2:00.

If these arrangements are satisfactory to you I would appreciate your letting me know. We are very grateful to you that you are willing to talk to us, and are looking forward to your lectures. I am only sorry that the two dates are so much separated.

Wish best regards,

Sincerely yours,

R.S. Mulliken
