MACHLETT

CABLE ADDRESS:
"MACHLETT," STAMFORD, CONN.

14th November 1955

Dr. K. S. Krishnan, Director
National Physical Laboratory
New Delhi, India

Dear sir:

During your visit to New York in May 1955, I had the pleasure of an interview with you. We briefly discussed then the prospects facing a PhD in electronic engineering upon his return to India. You mentioned possibilities at the National Physical Laboratory and, encouraged by your words, I forwarded to you at your laboratory, a resume of my academic training.

I am very eager to hear of your appraisal of my qualifications and to hear about the possibility of my employ at the National Physical Laboratory. At the present, I am in the process of considering the possible direction of my engineering career either in India or in the United States and a reply from you would enable me to consider one of the major possibilities in India.

Very truly yours,

B H Wadia

(B. H. Wadia)
