Dear Swaminathan,

I am sending you a copy of the letter, dated Viterbo, february 10th, you have not received.

I hope that you will accept the proposal of Porceddu and myself.

With my best wishes and regards.

Prot. n. 156

Dear Swaminathan,

The University of Tuscia will celebrate the first ten years of activity starting from the month of June 1989 through October 1990.

Among the most prominent activities, it has been decided to confer some honorary degrees as "Doctor honoris causa of the University of Tuscia".

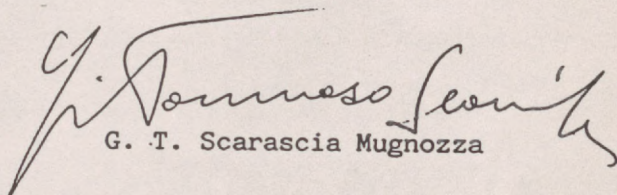

Following the proposal of Porceddu and mine, the Faculty of Agriculture will be unanimously glad if you would accept such an award.

In fact, we would like to honour yourself and show you the great admiration and the profound esteem to the scientist and the man that has so much contributed with its research activity and its deeds to the development of food production in countries with raising birth rate and to the improvement of working and living conditions of their farmers.

I hope that you will accept and so will allow us to celebrate your work in favour of humanity.

We can arrange the date of the ceremony that in any case will be held not before November 1989.

With my best wishes, I remain
sincerely yours

G. T. Scarascia Mugnozza
