My Dear Krishnan,

I see from the Hindi this morning  
that you are ill. I am very  
anxious to know what the  
complaint is about. I trust  
you will be alright soon.

Kindly instruct your secretary  
to write to me about it if  
it is possible to do so. I  
pray God that you may  
be restored to your normal  
health soon. With best wishes,

Yours sincerely,  
G. Achutha

My Dear Krishnan,

This morning <sup>! Hridya</sup> in morning that you are  
going to Geneva to attend the Atomic  
Energy Commission Workshop in August & to 20  
I thought of going to Delhi to meet you  
you may remember L. Venkatesan is  
trying for a job in Central Water &  
Power Commission. His application has  
not been sent by the Madras Govt  
He has been trying to get the  
Application forwarded to Delhi. It ~~will~~  
may take about a month to get  
this done. By the time the Application  
goes to Delhi, you will not be there  
but you will be in Europe.  
When application goes to Delhi, I  
thought of going there & request  
you to talk to the Chairman

of Central Water & Power Commission  
now that you will be away. If the  
application goes to Delhi during your  
absence I shall write to you setting  
your complete address from national  
phys. inst. laboratory, & I will request  
you to write to Chairman of Central  
Water & Power Commission. I think this  
is all that can be done. Now I  
would request you to remember this  
matter, if I can know your  
address ~~for~~ while you are in Europe  
I shall write to you. As if by  
the time the application goes to Delhi  
you return, I would like to  
spend a few weeks to at  
least - wishing you Bon voyage  
with regards,

Yours sincerely,

J. Acharya
