

# RSA

The Royal Society for the encouragement of  
Arts, Manufactures & Commerce

Founded in 1754

8 February 1991

*Dear Dr Swaminathan*

## FELLOWSHIP SUBSCRIPTION

According to our records there is an amount owing to the Society of £50.00 in respect of your annual subscription due on 29th September 1990.

Perhaps you have decided not to keep up your membership, but we do hope this is not the case. Probably an out of date bankers' order or simply an oversight is the cause of delay.

The state of the economy and high interest rates are putting considerable strains on the Society's finances and delayed payment of subscriptions - which make a very significant contribution to the resources of the Society - really does add to our difficulties.

If you value the work that the Society is doing, and wish to maintain your membership of the RSA, please could you send us your payment without delay? We regret that the Journal can no longer be sent to those who are more than three months in arrears.

Any queries concerning the status of your membership or dues may be checked by calling Gail Lucas in our accounts department. She or one of her colleagues will be pleased to help you. It would help us considerably if you would return the remittance advice with your payment.

Yours sincerely

*Margaret Coleman*

Fellowship Director
