

Statistical Laboratory,  
Presidency College, Calcutta.  
25 January 1946.

My dear Madhava Rao,

It was a great pleasure making personal contact with you after many years. The Science Congress programme was so crowded otherwise it would have been still better. All the same, it was good to have had the opportunity of meeting even if ~~x~~ for a few minutes in snatches.

I must however worry you about the list which I hope you will send me at an early date.

With kindest regards,

Yours sincerely,

*P. C. Mahalanobis*
