Dr. H. Heslot

to Dr. M.S. Swaminathan
Head - Division of Botany
Indian Agricultural Research Institute
New - Delhi 12 - INDE

Dear Dr. Swaminathan ,

Thank you for your letter of March 17 . It is very unfortunate indeed that our time - tables cannot possibly be fitted - As I told you , my laboratory will be closed from the 1st (evening) until the 12th April included , for the Easter Holidays . This means that all my collaborators will be absent on April 6th . Personally I shall be at that time in South Italy with my family . I deeply regret that the matter cannot be arranged because I believe an exchange of views between us would have been most useful .

I have just received a letter from one of your collaborators , Dr. J.V. Goud , expressing the wish to work in my laboratory . Could you kindly give me your appreciation on this person .

With best personal regards

Yours sincerely
