

I am in writing put (thesis) please give
any suggestions and latest information about
Benthic Macro invertebrates.

your resembles my favarule anti in my
family.

According to your transparency

"The hand in the cutting edge of the mind
do few things make sure they see the right
thing and do them brilliantly."

Madam when ever come to Hyderabad
please inform me.

WELCOME to Hyderabad.
(Cyberabad)

I am waiting for reply.

Thanking you madam

Yours faithfully

Huderedad.
oct 2001

Respected Madam,

I am very happy to write had an opportunity to met and heard a class about "cyto-genetics" at C.I.F.E. (Central Institute of fisheries education) Mumbai. on summer school of E.I.A. Management studies. (ICAR sponsored programme)

There ~~was~~ no slide projector at the time of your delivered lectures. due to some communication gap between organisers and Management.

Any how, I am also one of the participant of E.I.A. Management (Aug 7-27, 2001)

I am a research scholar of osmania university. My work is on Zoo bentic Macro Invertebrates in freshwater lake, (Bangara, Huderedad, A.P.)

I believe Madam, Life is originated from cells, from my child hood there is ~~no~~ ^{NO} specific guidance at primary level ^{in my} education. at that time I want to know detailed cell-structure, cell-organelle.

① Cell - Nucleus → D.N.A. & R.N.A → Genes.

② How they are very particular? How they transmit the Genes to parents to young ones.

③ prophase - telephase, metaphase. ~~in detail~~

at that time, ^{due to} mis guidance and communication I ~~could~~ ^{could} not study very clearly. Now any research starts with molecular level.

According to Mrs. ~~Indira~~ Indira Gandhi. (late prime minister of India)

"one should Improve by Genetically; we should not change the entire mass at a time;" in a system.

Any How, Madam. Now I am very happy like your personalities with me. to clear any doubt.
