

May 22, 1975

Dear Professor Madhava Rao,

The paper communicated by you to the Indian Academy of Sciences has been published in the November (1974) issue of the proceedings. I thank you very much for having taken the trouble of communicating my paper to the Academy. I have been in correspondence with Dr. S. Annachalam about reprints of my paper (Estimates for averages involving lattice points of rational indefinite quadratic forms). I have sent him 3 letters about the same and there has been no response from him so far. Can you possibly mention the matter in person when you happen to meet him or give him a telephone call. Please excuse me for the additional trouble. By the grace of God and blessings of elderly persons like you, I am getting on well here.

With deep regards,

Sincerely yours,

V. Venugopal Rao.
