

CONF. D.O. NO.50-C.

Mathematical Instrument Office,  
15, Wood Street,  
Calcutta, the 11th August, 1949.

Dear Dr. Krishnan,

I should like to have your views on the setting up of a new factory to replace M.I.O. in Calcutta area, particularly in view of the labour unrest in Calcutta.

The importance of M.I.O. is well known to the Defence Department and do you consider it advisable to set up a new factory near a border town? Also the market for M.I.O. is so well distributed over the country that the new factory should for preference be in a more central place in the country.

With kind regards.

Yours sincerely,

*Pc Mahajan*  
(P.C. Mahajan).

Dr. K.S. Krishnan, F.R.S.,  
Director,  
National Physical Laboratory of India,  
New Delhi.
