12th December, 1984.

Dear Mrs Peacock,

Following up our discussion regarding the construction of hides for birdwatching in ICRISAT, on 9th instant, I am mailing a design for your perusal, of such an hide.

If your source is the same, then I dare say that the design may be the same - otherwise, you will have another design to decide from.

The combined totals of our two groups on Sunday has come to 106 species! A record by any standards for this group.

Eagerly awaiting the ICRISAT List.

Best wishes,

Yours sincerely,

Encl: Xerox of "The design and siting of a standard birdwatching hide".
